Professional Women in Trades, Inc. (PWIT) is actively fundraising to support our "Manufacturing Skills to Pay the Bills" (MSPB) Program. This initiative is dedicated to empowering underserved communities—including women (especially women of color), men of color, and re-entering citizens—by providing them with essential entry-level skills needed for gainful employment in manufacturing roles such as CNC Operator, Machine Operator, Assembler, Inspector, and other key positions.

To enhance our program and provide the best training experience, we need your support. Our immediate requirements include:

- **Four (4) 60" x 30" workbench tables on wheels** for versatile workspace arrangements.
- **Desktop CNC Machines** to give hands-on experience with industry-standard equipment.
- **Two (2) 48" x 20" workbench tables** for simulator training, crucial for skill development.
- **Left-handed precision measuring tools** to accommodate our left-handed participants and ensure inclusive learning.
- **Gas cards for field trips**, enabling participants to visit industry sites and broaden their exposure to manufacturing environments.

Additionally, your contributions will help us host a graduation ceremony to celebrate our participants' achievements.

Every donation brings us closer to creating a supportive and effective training environment, equipping our community members with the skills they need to succeed. Thank you for your generosity and support in making this vision a reality.

Donate Today and Make a Difference! Professional Women in Trades is a nonprofit organization with 501(c)(3) status recognized by the IRS.
